

Diagram illustrating the layers of a network protocol stack, represented by interlocking shapes:

- Aplicação** (Application): The top layer, shown in grey, with a protruding tab on its bottom edge.
- Enlace** (Data Link): The second layer, shown in orange, with a matching notch on its top edge and a protruding tab on its bottom edge.
- Física** (Physical): The third layer, shown in purple, with a matching notch on its top edge and two protruding tabs on its bottom edge.
- Meio** (Medium): The bottom layer, shown in light grey, with three matching notches on its top edge.

Annotations:

- A line points from the text "Responsável por tornar o canal confiável" to the **Enlace** layer.
- A line points from the text "Responsável por serializar e desserializar os dados" to the **Física** layer.

Enlace

Responsável por  
tornar o canal confiável

Física

Responsável por  
serializar e desserializar os dados
